

OETTINGER Forged rim - Double Six

Weight 8.0 kg (17½ lbs) - Made in Germany

Size 8.5 x 19, Offset 50 mm, PCD 5 x 112, Load capacity 550 kg (1213 lbs)

The ultimate in performance, the new OETTINGER forged wheel Double Six.

OETTINGER Forged rim - Double Six

Weight 8.0 kg (17½ lbs) - Made in Germany

This extremely light and at the same time extremely strong OETTINGER Double Six forged rim, with a weight of only 8 kg (17½ lbs) and a load rating of 550 kg (1213 lbs), has been specially designed for the performance versions Golf R / GTI, Audi S3 / RS3, Cupra R.

The impressive high-performance wheel, which was developed in close co-operation between OETTINGER Design and Engineering teams, displays an elegant sporting design and technical sophistication. The character of the design is characterised by six slim V-shaped outward opening double spokes separated from the deeply recessed centre by a clearly defined ring.

The OETTINGER Double Six Forged rim is manufactured exclusively in Germany to the highest quality standards and is available in a wide range of colours and finishes.
